DESIGN CONCEPT

Chandeliers and lamps have always been fantasy objects that illuminate and integrate themselves into the room as art objects.

The inspiration for this lighting series also has its origin in such a world full of fantasies.

It makes use of the architectural period of the Gothic style and the fantasies it brought with it, in particular the usage of waterspouts throughout the ancient epic buildings (Cathedrals, etc.) in Europa.

These mystical and mythical creatures, also known as Gargoyle, mostly in animal or chimeric form and how they tower above our heads on these big buildings, looking down on us with their scary faces and imposing appearances gave the first impulse to this lighting concept.

Especially the successors of this style, which one can find in American architecture and especially in the build-up of New York City in the period of the 1900's to the late 1940's, became a big influence to this lighting design idea.

From this inspiration, the design language of this lighting series was developed by simplification (of these mystical creatures) using glass and brass.

The resulting design is minimalist and elegant and fits into any style.

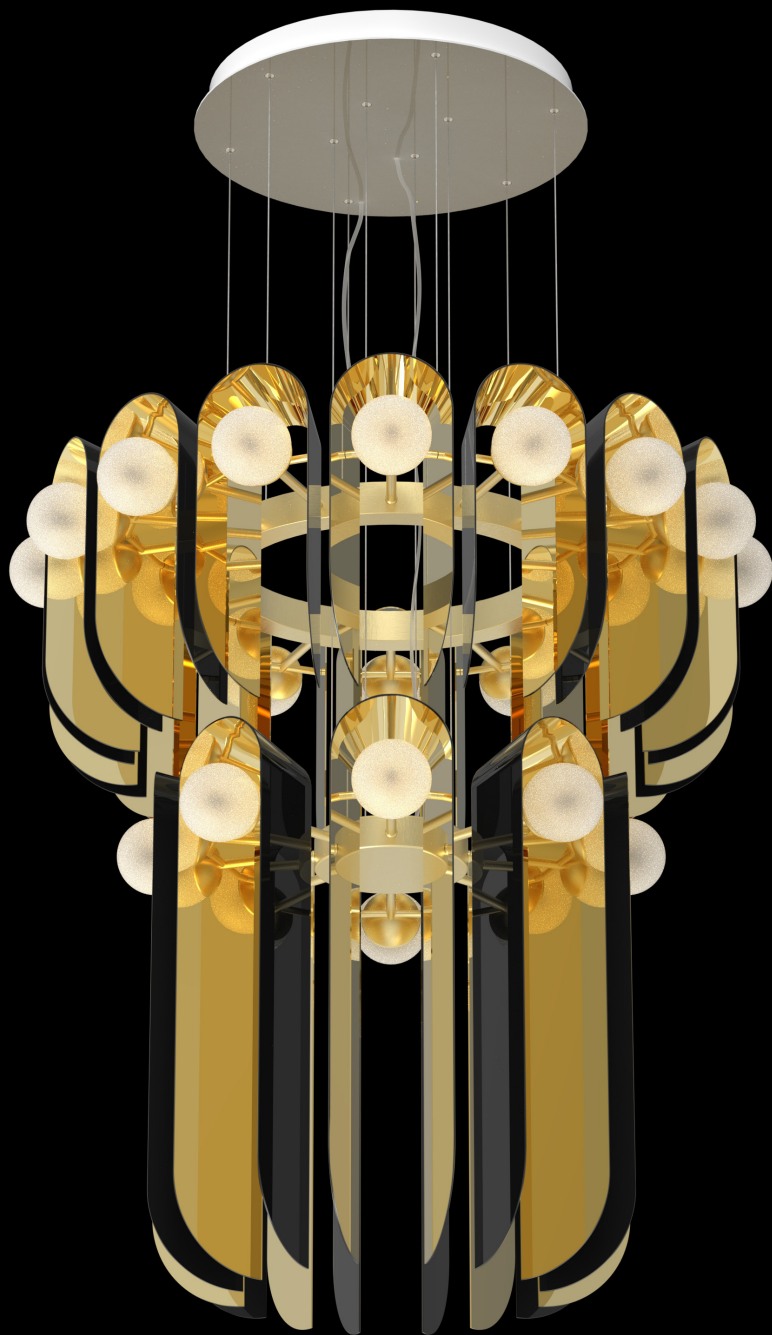

The series consists of a chandelier, a wall, table and floor lamp and can be produced in a wide variety of sizes and surface finishes.

Chandelier details

Weight approx.:	40kg	Lightsource:	6x G9 - LED
Dimensionen		Materials	
Height:	130cm	Brass:	Laquered matt finish
Diameter:	80cm	Glass:	satine finish
Production		Power requirement	
Prototype aimed at a series production		up to 12W per G9 socket

Bakalowits is one of the world's leading manufacturer for bespoke lighting solutions

Founded in 1845 in Vienna - Austria, **Bakalowits has more than 177 years of experience** in designing, manufacturing, installing and restoring of prestigious custom made light fixtures for commercial, residential and private projects all over the World. These projects include palaces, governmental buildings, opera houses, hotels, conference centers and cruise ships as well as private homes and apartments. The chandelier and lighting portfolio of Bakalowits span over various art historical periods and styles including both historical and contemporary fixtures.

Today this portfolio includes over 10.000+ models and designs, all of which can still be reproduced. The inhouse design division uses its creativity, its knowledge and its extensive experience with international clients to further extend this portfolio with ever new designs. This assures the clients of Bakalowits a unique and personal touch within every single project and we can proudly say that **everything is possible with us.**

In addition to designing and manufacturing new products, the company Bakalowits also uses the unique knowledge and skills of the specialists and staff to repair and restore older chandeliers and other light fixtures.

Being family - owned and managed in 5th Generation with the 6th generation already involved with new ideas and approaches Bakalowits continues to expand worldwide, currently exporting 90% of its products overseas. At the same time the Bakalowits family continues its commitment to the highest standards of quality and excellence in its products and services for its clients now and in the future to come.

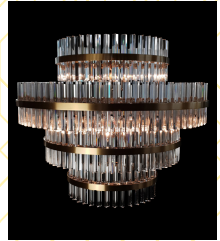

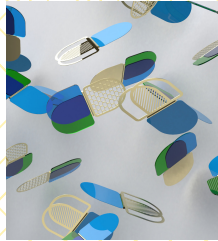

We look forward to collaborating with you on future projects.

OUR SERVICES

DESIGN AND CONSULTANCY

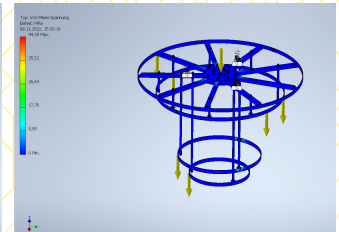

Our inhouse design team is able to support you at any stage of your project. Our designers are experts in designing in all design directions and periodic styles from the past till the future.

You name it we design it

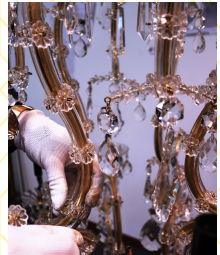

PRE - PRODUCTION TECHNICAL SUPPORT

Our technical team offers the full scope of technical support within the production of lighting. Whether it is for technical question of a part of a chandelier or the complete technical realisation of a clients design our engineers and technical drawers can support you at any stage of your project.

PRODUCTION AND MANUFACTURING

Our own production facilities in Vienna house only the most skilled manufacturing staff. Every technician is among the best of his craft. Whether it is metallworking, glassworks, electrical or surface finishing we have everything in house. Therefore the chandeliers of Bakalowits overexceed clients expectations throughout the world.

POST PRODUCTION INSTALLATION

For every lighting object we produce we also provide worldwide installation. Our staff is available to travel all over the world for on-site installation if requested.

If not we can provide you with installation and maintenance manual for self-installation instead.

REPAIR SPARE PARTS RESTAURATION

Due to our extensive historical records and our specialists' expertise, we are able to repair and restore chandeliers and other light fixtures of various styles and periods made by Bakalowits or other manufacturers.

All work is done at our Vienna workshop but if requested we can also travel to your site.
